List of Patents gained from Pakistan Patent Office

<u>Sl.no.</u>	Patent Application	<u>Patent No.</u>
1.	A process for the treatment of <i>kumbi</i> leaves (careya arborea roxb) for use in rolling tobacco in the <i>bidi</i> manufacture.	PP-109798
2.	A process for isolating jute seed oil, strophanthidin and raffinose from jut seeds.	PP-110064
3.	A process for production of spinnble fiber from jute cuttings.	PP-110185
4.	A process for the recovery of sucrose from molasses.	PP-114264
5.	A process for production of malted vinegar from sugar-cane juice and sugar-cane molasses.	PP-117139
6.	A process for production of lactic acid from sugar cane blackstrap molasses.	PP-117203
7.	A process for production of azobenzene from nitrobenzene.	PP-117516
8.	A process for production of pulp for the manufacture of rayon from jute wastes and jute sticks.	PP-117560
9.	A process for production of board grade pulp from jute sticks.	PP-117561
10.	A process for production of aromatics and olefins from natural gas condensate.	PP-117624
11.	A process for production of superior quality boards from newspaper waste or the like.	PP-118911
12.	A process for production of linoleic acid.	PP-119472
13.	A process for the isolation of tartaric acid from tamarind pulp.	PP-119473
14.	A process for production of crystalline glucose from starch	PP-119505
15.	A process for production of a water distillation plant.	PP-119888
16.	A process for production of fiber from sheathing leaf bases of false aerial stems of banana plants and cordage and cloth made there form.	PP-120618
17.	A process for the isolation of natural dye from tamarind seed testa.	PP-121012
18.	A process for production of scopolamine hydrochloride.	PP-121015
19.	A process for production of berberine hydrochloride from berberis aristata.	PP-121016

List of Patents so far gained from Bangladesh Patent Office.

-1-

<u>S1.</u>	Name of the Patents	Patent no.
<u>Sl.</u> 1.	A process for microbiological upgrading of jute cutting for spinable fibres.	1000003
2.	A process for the production of cotton white fibre from jute and spinning of them in cotton spinning.	
3.	A process for the manufacture of ceramics antineas in the temperature range of 1200-1250°C.	1000019
4.	A process for the preparation of meat meal from slaughterhouse wastes for feeding poultry.	1000020
5.	A simple process for preparing blood meal from slaughterhouse wastes for feeding poultry.	1000021
6.	A process for the production of mixed stabilizer emulsifier for ice cream.	1000031
7.	A process for the production of universal indicator paper from the pericarp (fruit shell) rauwolfia serpentina (sarpagandha).	1000042
8.	A process for the purification of honey.	1000049
9.	A process for the production of naturelit, a noble lit paper from the natural dye of rauwolfia.	1000051
10.	A process for the production of refined kerosene free from irritant odor.	1000191
11.	A process for the extraction of fibre from pineapple leaves and making of ropes, cordage, fabrics and embroidery thread thereform.	1000191
12.	A process for the production of rennet enzyme (cow rennet) from the stomach of young animals.	1000237
13.	A process for the production of causticized potash	1000292
14.	A process for the production of scopolamine hydrochloride from <i>datura fastuosa pericarp</i> (fruit shell).	1000299
15.	A process for the production of dextrin from commercial sucrose by fermentation.	1000327
16.	A process for the canning of jackfruit in sugar syrup alongwith other ingredients such as citric acid & calcium chloride.	1000333
17.	A process for the canning of mango in sugar syrup containing a small quantity of citric acid.	1000335
18.	A process for the production of stearic acid from <i>Madhuka Latifolia</i> seeds.	1000359
19.	A process for the production of citric acid from raw sugar by fermentation.	1000361
20.	A steam jacketted moulding plant for the production of polystyrene foam.	1000372
21.	A process for the production of scopolamine hydrochloride from <i>datura fastuosa seed</i> .	1000386
22.	A process for canning of pineapple in sugar syrup.	1000390
23.	A process for the production of 80% crude glycerine of low salt content from the alkali-enriched soaplye.	1000398
24.	A process for the production of lacquer grade nitrocellulose from rayon & dilphane wastes & lacquer made thereform.	1000403
25.	A process for the production of fibre from 'karata', a species of the genus 'agave' belong to the family amaryllidaceae.	1000406
26.	A process for the extraction of yellow dye from mango leaf for dyeing cotton fabrics.	1000429
27.	A process for the preservation of bamboo by soluble chemicals for rural housing.	1000463
28.	A formulation and preparation of poultry feeds for starters from indigenous	1000492

raw materials.

	raw materials.	
29.	A formulation and preparation of poultry feeds for layers from indigenous	1000493
	raw materials.	
30.	A process for the extraction of fibre from the leaf bases of betelnut plants.	
31.	A process for the production of rice with improved nutritive value.	1000604
32.	A process for the stabilization of peanut butter.	1000606
33.	A process for the production of an indelible marking ink.	
34.	A process for the production of bland flavoured & debittered full fat soya	1000636
	flour.	
35.	A process for the production of artificial milk from <i>soyabeans</i> .	1000639
36.	A process for the production of ammonium chloride and sodium sulphate.	1000654
37.	A process for dyeing cotton fabric by <i>jatropha curcas bark</i> extract	1000685
	containing chocolate coloured dye.	
38.	A process for the manufacture of high grade transparent hide glue.	1000718
39.	A process for the preparation of an improved quality fat-splitting reagent.	1000763
40.	A process for the preparation of a non-ionic surface active agent from faty	1000765
	acid.	
41.	A process for the production of low cost high protein cake using <i>soyaflour</i>	1000766
	as the source of protein.	
42.	A process for the production of black shoe polish.	1000767
43.	A process for the production of berberine hydrochloride from the bark of	1000772
	berberis aristata.	1000112
44.	A process for the production of adhesive from the seed lac.	1000791
45.	A process for the production of scopolamine hydrochloride from <i>datura</i>	1000801
	fastuosa leaves.	1000001
46.	A process for the production of heat resistance & waterproof coating	1000802
	composition for wooden and paper bobbins.	1000002
47.	A process for the preparation of stearic acid from beef tallow.	1000832
48.	A process for the preparation of narcotine from opium extract and its	1000849
	therapeutics use.	
49.	A process for the production of quality transparent wood varnish from seed	1000863
.,.	lac.	1000000
50.	A process for the production of <i>soya</i> – <i>dadhi</i>	1000864
51.	A process for the preparation of bloodmeal, a protein concentrate for	1000886
	making poultry feed.	
52.	A process and a plant for the recovery of gypsum dehydrate from phospho-	1000907
	gypsum.	
53.	A process for the production of nail polish with shelac as the main	1000934
	ingredient.	
54.	A process for the recovery of silver from photographic waste solution.	1000955
55.	A process for thermal and / or sound insulating board from jutestick.	1000957
56.	A process for the production of scopolamine hydrobromide from the	1000959
	pericarp (fruit shell) of datura fastuosa	
57.	A process for the preparation of vacuum gasket cement.	1000974
58.	A process for the conversion of jute or jute cutting into wool-like mass	1000978
	useful for the manufacture of blankets, carpets, fabrics or the like.	
59.	A process for the production of starch based high quality adhesive.	1000983
60.	A process for the production of instant tea.	1000985
61.	A process for the preservation of indigenous roofing materials for rural	1001017

housing.

	nousing.				
62.	A process for the production of copper based water borne wood	1001018			
	preservative.				
63.	A process for the stabilization of peanut butter.	1001022 1001024			
64.	A process for the production of soya sauce				
65.	A process for the preparation of brake fluid.				
66.	An improvement procedure for preparing of cotramine.				
67.	A process for the production of starch from <i>musa paradisica plant</i> .				
68.	A process for the production of dewaxed shellac flakes from seed lac.	1001040			
69.	A process for the production of strychnine from strychnos nux- vomica	1001044			
	seeds.				
70.	A process for the production of sericin from silk washing.	1001045			
71.	A process for the production of mosquito repellent ointment for application	1001048			
	to the skin.				
72.	A process for the production of reservine from the roots of rauwolfia	1001052			
	serpentina (sarpagandha).	1001002			
73.	A process for the refining and stabilization of oil from parboiled rice bran.	1001055			
74.	A process for the production of long preserving <i>dadhi</i> (a fermented milk	1001055			
/ 4.	products).	1001000			
75.	A process for the production of readymade transparent wood varnish from	1001093			
75.	raw lac.	1001093			
76		1001102			
76.	A process for the production of zinc based water borne wood preservative	1001102			
77. 79	A process for the production of waterproof flexible board from jutestick.	1001111			
78.	A process for the production of quality fibre from the bark of abroma	1001116			
70	augusta plant.	1001150			
79.	A process for extraction of fibres from pineapple leaves by retting under	1001158			
00	controlled condition.	1001155			
80.	A process for the production of <i>ethylparaben</i> (4 – hydroxy- benzoic acid	1001175			
	ethyl ester.)				
81.	A process for the production of <i>propylparaben</i> (4-hydroxy benzoic acid.	1001176			
82.	A process for the production of <i>methylparaben</i> (4-hydroxy-benzoic acid	1001177			
	methyl ester.)				
83.	A process for the production of tonic appetizer & a syrup concentrate from	1001196			
	emblica officinalis with a new stabilizer for vitamin C.				
84.	Improvements in & relating to a process & a plant for recovery of gypsum	1001226			
	dihydrate from phospho-gypsum.				
85.	A process for the production of scopolamine hydrobromide from datura	1001231			
	fastuosa leaves.				
86.	A process for the production of corrugated roofing sheet from jute stick.	1001236			
87.	A process for the preservation of coconut kernel.	1001244			
88.	A process for the production of household cleaner.	1001251			
89.	A process for the production of citric acid from cane molasses by	1001252			
	fermentation.	1001202			
90.	A process for making cotton fabrics and jute hessians fire-retardant using	1001257			
<i>J</i> 0.	calcium chloride and ammonium sulphate.	1001237			
91.	A process for the refining of gum arabica.	1001258			
91. 92.	A process for the production of household cleaning agent (solid).	1001258			
92. 93.	A process for the dyeing cotton fabric by diospyros embryopteris bark	1001259			
15.	A process for the dyeing cotton rabite by diospyros emoryopteris bark	1001202			

	extract containing chocolate coloured dye.	
94.	A process for the production of picric acid.	
95.	A process for the manufacture of black on – glaze ceramic colour.	
96.	A process for the synthesis of glycerophosphate of calcium.	
97.	A process for the production of monosodium glutamate.	1001359 1001360
98.	A process for the production of adhesive from potato starch.	
99.	A process for the synthesis of molybdenum disulphide from zinc sulphide.	1001367
100.	A process for the production of calcium stearate from stearic acid.	1001368
101.	A process for the production of Rot-proofing jute fibre.	1001372
102.	A process for the preparation of cola drink.	1001389
103.	A process for the production of permanent water proofing of textile fabrics with rubber latex.	1001400
104.	A process for the production of beer from coconut water.	1001411
101.	A process for the preparation of jelly from wood apple.	1001476
105.	A process for the preparation of piperazine citrate.	1001486
107.	A process for the extraction diosgenin from costus speciosus (koenig) SM.	1001493
107.	A process for the purification of crude manganese dioxide obtained as a by	1001542
100.	product in the manufacture of saccharine.	1001012
109.	A process for the production of fire extinguishing powder	1001548
110.	Improvements in or relating to a process for the production of a	1001563
	composition for correcting errors in typing, sketching, drawing etc.	
111.	A process for the production of quality gum from starch.	1001584
112.	A process for the production of citrus soft drink.	1001620
113.	A process for the preparation of glucosamine hydrochloride from lobster	1001621
	shells.	
114.	A process for the preparation of lemon crushes.	1001622
114. 115.	A process for the preparation of lemon crushes. A process for the preparation of jelly from jackfruit waste.	1001638
115. 116.	A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss.	1001638 1001646
115. 116. 117.	A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish.	1001638 1001646 1001656
115. 116. 117. 118.	A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola.	1001638 1001646 1001656 1001660
115. 116. 117.	A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish.	1001638 1001646 1001656
 115. 116. 117. 118. 119. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. 	1001638 1001646 1001656 1001660 1001672
 115. 116. 117. 118. 119. 120. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. 	1001638 1001646 1001656 1001660 1001672 1001686
 115. 116. 117. 118. 119. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. 	1001638 1001646 1001656 1001660 1001672
 115. 116. 117. 118. 119. 120. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc 	1001638 1001646 1001656 1001660 1001672 1001686
 115. 116. 117. 118. 119. 120. 121. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. 	1001638 1001646 1001656 1001660 1001672 1001686 1001687
 115. 116. 117. 118. 119. 120. 121. 122. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714
 115. 116. 117. 118. 119. 120. 121. 122. 123. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of quality cold cream. 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714 1001718
 115. 116. 117. 118. 119. 120. 121. 122. 122. 123. 124. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of zinc acetate from zinc ash. 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714 1001718 1001755
 115. 116. 117. 118. 119. 120. 121. 122. 123. 124. 125. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of guality cold cream. A process for the production of zinc acetate from zinc ash. A process for the formulation of improved quality vanishing cream. 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714 1001718 1001755 1001765
 115. 116. 117. 118. 119. 120. 121. 122. 123. 124. 125. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of zinc acetate from zinc ash. A process for the production of precipated calcium carbonate and sodium 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714 1001718 1001755 1001765
 115. 116. 117. 118. 119. 120. 121. 122. 123. 124. 125. 126. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of zinc acetate from zinc ash. A process for the formulation of improved quality vanishing cream. A process for the production of precipated calcium carbonate and sodium sulphate. 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714 1001718 1001755 1001765 1001784
 115. 116. 117. 118. 119. 120. 121. 122. 123. 124. 125. 126. 127. 128. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of zinc acetate from zinc ash. A process for the production of precipated calcium carbonate and sodium sulphate. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. 	1001638 1001646 1001656 1001660 1001672 1001686 1001687 1001714 1001718 1001755 1001765 1001765 1001784
 115. 116. 117. 118. 119. 120. 121. 122. 123. 124. 125. 126. 127. 128. 129. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of zinc acetate from zinc ash. A process for the production of precipated calcium carbonate and sodium sulphate. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. 	1001638 1001646 1001650 1001672 1001687 1001714 1001718 1001755 1001765 1001765 1001784 1001809 1001818 1001821
 115. 116. 117. 118. 119. 120. 121. 122. 123. 124. 125. 126. 127. 128. 129. 130. 	 A process for the preparation of jelly from jackfruit waste. A process for the formulation of lip – gloss. A process for the production of high quality shoe polish. A process for the preparation of jelly from carambola. A process for the bleaching of waste hair for making brush of different types. A process for the purification of gum acacia. A process for the preparation of carboxymethyl cellulose from rayon waste. A process for the production of zinc chloride from zinc dross and zinc scrap. A process for the production of zinc acetate from zinc ash. A process for the production of precipated calcium carbonate and sodium sulphate. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of zinc sulphate from zinc ash. A process for the production of malted barley flour. A process for the production of malted barley flour. A process for canning of chapila (gadusia chapra Ham) 	1001638 1001646 1001656 1001660 1001672 1001687 1001714 1001714 1001718 1001755 1001765 1001765 1001784 1001809 1001818 1001821 1001823

133.	A process for the production of quality shoe cream.	1001845
133.	Improvement in or relating to a process for the production of acid –	
134.	resistant silicate cement.	
135.	A process for the production of spinning oil emulsifier.	1001867
136.	A process for improved model of domestic cooking stove.	1001807
130.	A process for design and construction of a multiple cooking stove.	1001872
137.	A process for the manufacture of starch adhesive from temarind kernel	1001874
	powder (TKP).	
139.	A process for the production of high quality vegetable fat for confectionary use from mango seed kernel.	1001887
140.	An invention for a new motor fuel composition for tropical countries.	1001891
141.	A process for the preparation of rosin modified bis-phenol formaldehyde	1001911
	resin useful for making marine paints.	
142.	A process for making flexible leather leather board.	1001916
143.	A process for the manufacture of activated bleaching earth from Bijoypur	1001921
	clay for refining of edible fats and oil.	
144.	A process for refining of cottonseed oil for edible purpose.	1001929
145.	A process for improved model of cooking stove for all kinds of traditional	1001994
	fuels.	
146.	A process for the production of yellow iron oxide pigment.	1002161
147.	A process for the preparation of water softening agent.	1002162
148.	A process for the simplified model of domestic oven.	1002228
149.	A process for improved model of domestic gas cooking stove.	1002248
150.	A process for the production of white cover coat enamel frit.	1002258
151.	A process for the production of solar oven, $model - 1$.	1002297
152.	1 1 1 I I I I I I I I I I I I I I I I I	
	drinking purposes.	
153.	A process for the production of improved solar oven, model-2.	1002316
154.	A process for solar oven shadeless model.	1002325
155.	A process for high efficiency insulating blanket for improved stove.	1002343
156.	1 1 6 6	
157.	A process for the formulation of quality dish washing detergent powder	1002372
	from locally available materials.	
158.	A process for the production of high glossy water resistance oleoresinous	1002384
	wood varnishes from tobacco seed oil.	
159.	A process for improved model of tandur for cooking & baking.	1002411
160.	A process for the production of sodium silicate from rice husk ash.	1002430
161.	A process for the production of dermal rays of shark fins.	1002442
162.	A process for new formulations of soil mixture for making cookstoves.	1002454
163.	A process for the production of ground coat enamel frit.	1002460
164.	A process for the production of potash alum.	1002469
165.	A process for the production of paper pulp from whole jute plant and jute	1002476
	wastes (jute cutting & caddies) by soda anthraquinone process.	
166.	A process for the production of potassium sesquicarbonate.	1002477
167.	A process for conversion of a petrol engine to a duel fuel engine for natural	1002487
	gas at atmospheric pressure and petrol.	
168.	A process for design and fabrication of a fixed dome biogas plant.	1002489
169.	A process for the production of ferro cement gas holder.	1002492
170.	A process for the production of dry jute vegetable.	1002498

171.	A process for the production of assorted OCP (onion,coriander,potato) spice.	1002499		
172.	A process for the production of PG baking flour.	1002503		
172.				
	A process for the production of tooth powder.			
174.	A process for the preparation of glue from tannery waste.			
175.	A process for the production of B.F baby food.			
176.	A process for the production of highly flexible leather board.	1002517 1002520		
177.	A process for the production of assorted OGC (onion, garlic, coriander) spice.			
178.	A process for the production of SSPS oral saline.	1002521		
179.	A process for the production of shaving brush.	1002542		
180.	A process for the preparation of gelatin from hide trimmings.	1002546		
181.	A process for the production of boric acid from locally available	1002551		
	hydrochloric acid and imported commercial borax.			
182.	A process for the production of correcting fluid (water based).	1002611		
183.	A process for the production of ultramarine blue from Bijoypur clay.	1002620		
184.	A process for the production of prussian blue pigment.	1002644		
185.	A process for the production of animal feed from sugar cane bagasse.	1002677		
186.	Improvement in or relating to a process for the production of sodium	1002689		
100.	hydrosulphite.	1002007		
187.	A process for the production of radish chips.	1002732		
187.	A process for the production of nicotine reduced chewing tobacco.	1002732		
188. 189.	A process for the production of high protein and vitamin enriched	1002730		
109.	groundnut butter from groundnut.	1002745		
100	5 °	1002749		
190.	A process for the production of NC (Nicotine, Copper) insecticide.			
191.	A process for the production of high protein and vitamin enriched bread from groundnut seed meal.	1002764		
192.	A process for the production of general reagent grade sodium chloride from the waste filtrate of boric acid.	1002768		
193.	A process for the production of orange yellow azo dye.	1002786		
194.	A process for design & fabrication of poultry litter based fixed dome bio-			
	gas plant.	1002848		
195.		1002851		
	fruits and vegetables.			
196.	A process for the preservation of plum.	1002872		
197.	A process for the production of soluble starch for iodometry from starch of	1002879		
	indigenous sources.			
198.	A process for the production of cassava (topioca) starch.	1002907		
199.	A process for the production of seeds in carrot plants.	1002910		
200.	A process for the production of mango leather from mango pulp.	1002930		
201.	A process for the production of papaya leather from the papaya pulp.	1002940		
201.	A process for the production of <i>dillenia indica</i> (chalta) leather from	1002941		
202.	<i>dillenia indica</i> (chalta) pulp.	1002/41		
203.	A process for the preservation of mango slices.	1002942		
203. 204.	A process for the production of tomato leather from tomato pulp.	1002942		
204.	A process for the production of quality perfumed wax pencil from locally	1002943		
205.	available materials.	1002703		
206.	A process for the production of ripe mango pulp powder for instant energy	1002971		
200.	drink.	10027/1		
	urmix.			

207	A presses for the preduction of also from limed flocking	1002984
207.	A process for the production of glue from limed fleshing.	
208.	A process for the production of coriander pickle.	
209.	A process for the production of sweet mango pickle.	
210.	A process for the production of glaceed jackfruit.	
211.	A process for the production of high quality textile size from locally available materials.	1003060
212.	A process for the production of salted lemon peel pickle.	1003064
213.	A process for the production of nature based mosquito coil called Repel- Fly.	
214.	A process for the production of anti-mosquito spray.	1003072
215.	A process for the production of anti- mosquito cream.	1003076
216.	A simple and economic process for the production of fermented food (idli) from parboiled rice and bengal gram by mixed fermentation.	1003077
217.	Improvement in or relating to a process for the production of precipitated yellow iron oxide pigment.	1003172
218.	A process for the production of red iron oxide pigment.	1003197
219.	A process for the long life iodine testing solution to detect iodised salt.	1003287
220.	A process for the production of bio-fertilizer from some wastes and by-	1003288
	products.	
221.	Improvements relating to a process for the production of calcined red iron oxide pigment.	1003319
222.	A process for the extraction of hilsha fish oil with serum lipid lowering	1003331
•••	effect on human subjects.	1000010
223.	A process for design and fabrication of a mixed mode solar drier for soft and sweet foods.	1003342
224.		1003345
224. 225.	A process for the production of candy from bamboo shoots.	1003345 1003346

249.	A process for the production and storage of litchi squash.	1003864
250.	A process for the preparation of water melon candy.	1003882
251.	A process for the production of medicated biscuit as dietatic food.	1003875
252.	A process for the improved gas stove for large scale cooking and other	1003879
	heating purposes.	
253.	A process for the production of papaya nectar	1003903
254.	A process for the preparation of green mango jam.	1003909
255.	A process for the production of healthy candy from ginger.	1003914
256.	A process for the production of shark liver oil with high content of vitamin	1003920
	A, D and polyunsaturated fatty acids.	
257.	A process for the production of medicated bread as dietatic food.	1003959
258.	A process for the preparation of herbal hair tonic	1003979
259.	A process for the production of orange coloured shade on silk fabric with	1004018
	blended vegetable dye and synthetic dye	
260.	A process for the production of reddish brown shade and blended vegetable	1004031
	dye	
261.	A process for the production of deep red coloured shade on silk fabric	1004032
262.	A process for the production of deep brown shade on silk fabric and yarn	1004033
263.	A process for the production of pure silica from rice husk ash	1004056
264.	A process for the production of epoxidized soybean oil	1004066
265.	A process for the production of readymix Idli from parboiled rice and pulse	1004078
266.	A process for the production of sweet potato flours	1004100
267.	A process for the production of new synthetic yellow dye	1004101
268.	Process for the production of deep brown shade on silk fabric and yarn with	1004102
	khair	
269.	A process for the production of printing ink (black)	1004103
270.	A process for the production of chitin flakes / powder from shrimp shell	1004105
271.	Process for the production of light brown shade on silk fabric and yarn with	1004107
	khair	
272.	A process for the production of sweet potato chips	1004108
273.	A process for the production of alkaline sulphite anthraquinone methanol	1004115
	(ASAM) pulp from jute	
274.	A process for the production of sweet potato starch	1004118
275.	A process for the production of mixed fruit spread from the fruits of guava	1004122
	and black berry	_
276.	A process for the production of stencil ink	1004123
277.	A process for the production of ready to use ginger paste	1004140
211.	r process for the production of ready to use gniger paste	1004140

278.	A process for the production of sodium hydrosulphide for bleaching from locally available raw materials			
279.	A process for the preparation of non-toxic natural food colourant by using extractable colourant from the seeds of <i>Bixa orellana</i>			
280.	A process for the isolation of catechin from red heart wood of acacia			
281.	catechu tree A process for the preparation of high glossy water proof oleo resinous wood varnishes from petuli seed oil			
282.	A process for the preparation of herbal hair cream	1004180		
283.	Improvements in or Relating to a process for in vitro mass propagation of neem saplings through tissue culture technique			
284.	Improvement in or relating to a process for the production of artificial marble from barium sulphate	1004193		
285.	A process for the modified method of production of sebacic acid from castor oil	1004223		
286.	A new process for the development of <i>spirulina</i> culture	1004233		
287.	Fermented biscuit from parboiled rice and black gram by mixed	1004238		
200	fermentation	1004041		
288.	Bacteriological kit for evaluation of water	1004241		
289.	A process for the production of drawing ink from shellac	1004245		
290. 201	A process for the production of insulating adhesive for cotton tape	1004246		
291.	A process for the production of chewing ginger	1004247		
292.	A process for the production of assorted mesta jute vegetable	1004249		
293.	A process for the production of fruity from papaya	1004286		
294.	A process for the production of meat floss from beef meat	1004330		
295.	A process for the production of natural insecticides from tobacco wastages	1004336 1004341		
296.	A process for the production of meat dice from beef meat			
297.	Preparation of protein and vitamin enriched milk curd from groundnut	1004347		
298.	A process for the production of pitraj seed oil as a liniment in rheumatism	1004403		
299.	A process for the production of sinus and nasal obstruct curative agent	1004404		
300.	A process for the production of soy chunk	1004422		
301.	A process for the production of ginger cola in glass bottle	1004425		
302.	Production of gastrointestinal hyperacidity ulceration curative agent	1004437		
303.	A process for the production of soda- anthraquinone pulp from cotton stalks	1004443		
304.	A process for the production of instant high protein pakora mix (pulse pan cake)	1004445		
305.	A process for the production of vitamin enriched medicated amrha jelly	1004464		
306.	A process for the production of pure silicon dioxide (silica) from locally markets available sodium silicate	1004492		
307.	A process for the production of essential oil & pectin from satkara (<i>citrus nacroptena</i>)	1004524		
308.	Preparation of natural insecticidal fertilizer from coir based lignin	1004697		
309.	Preparation of herbal hormonal insecticidal fertilizer from waste banana stem bark based juice	1004698		
310	Preparation of Betel Spices from Herbs and Shurbs. 21.07.2008	1004751		

311.	A process for the production of palm powder.	11.08.2008	1004768
312	A process for the production of Aloe vera powder.	15.10.2008	1004785
313	Preparation of powerful phenyl from petuli oil.	15.10.2008	1004786
314	Preparation of Fluid disinfectant from castor oil.	15.10.2008	1004787
315	A process for the production of cracked heel cream.	15.10.2008	1004784
316	An Improved process for the production of cured beef.	09.11.2008	1004821
317	A process for the production of Nutritious Palm Bread	30.11.2008	1004830
318	A process for the production of Nutritious Palm Cake	30.11.2008	1004829
319	A Process for the production of herbal aloe shampoo.	22.03.2009	1004897
320	A process for the production of aloe lemon drink. Raj.	08.04.2009	1004905

List of Patents accepted from July 2008 to June 2009

1.	Preparation of Betel Spices from Herbs and Shrubs.	21.07.2008	1004751
2.	A process for the production of palm powder.	11.08.2008	1004768
3.	A process for the production of Aloe vera powder.	15.10.2008	1004785
4.	Preparation of powerful phenyl from petuli oil.	15.10.2008	1004786
5.	Preparation of Fluid disinfectant from castor oil.	15.10.2008	1004787
6.	A process for the production of cracked heel cream.	15.10.2008	1004784
7.	An Improved process for the production of cured beef.	09.11.2008	1004821
8.	A process for the production of Nutritious Palm Bread	30.11.2008	1004830
9.	A process for the production of Nutritious Palm Cake	30.11.2008	1004829
10.	A Process for the production of herbal aloe shampoo.	22.03.2009	1004897
11.	A process for the production of aloe lemon drink. Raj.	08.04.2009	1004905
